```c
#include<stdio.h>
#include<conio.h>

void main()
{
    int a, b;
    printf("ente the value of b=");
    scanf("%d",&b);
    printf("enter the value of a=");
    scanf("%d",&a);
    if(a>b)
    {
    printf("a is greater than b. ");
    }
    else
    {
    printf("b is greater than a. ");
    }
    getch();
}
```
